SUMMARY

Full Stack Web Developer aiming toward making the user experience on the web more intuitive. Received a certificate for completing a full stack coding bootcamp course through the University of Arizona. Holds a background in leadership and management, professionally and from the creative arts. Partnered with a team to build an app called "Crusine", using React, Javascript and MySQL. We created this app for the owners of mobile food kitchens to help track and log expenditures and inventory. Ecstatic to showcase mastery of web development skills towards building a tight-knit team focused on creating a user- friendly web.

TECHNICAL SKILLS

Git, HTML5, CSS3, Javascript 5 and 6, jQuery, Web APIs, Bootstrap, AJAX, Node.js, Express.js, Handlebars, Heroku, MySQL, Sequelize, MongoDB, Mongoose, React.js, Python

PROJECTS

Crusine | [Link to GitHub Repo](#) | [Link to Deployed Project](#)

- Final group project through the bootcamp, this app is a content management system designed for mobile food vendors. We created this app with React, Javascript, Chart.js, and MySQL.

Password Generator | [Link to GitHub Repo](#) | [Link to Deployed Project](#)

- Generates a randomized password between 8 and 128 characters. User gets to choose length and character types. Created a password generator using Bootstrap, JS, HTML and CSS.

Task Master | [Link to GitHub Repo](#) | [Link to Deployed Project](#)

- My first Python and Flask application I have built. It has full CRUD capabilities, meaning that the user is able to add, edit and delete tasks from the database. This was super fun to make!

EXPERIENCE

Server 2019-2020
The Henry Las Vegas, NV

- Keep updated knowledge of menu and promotions, recommending specific items according to preferences and food allergies.
- Work with POS system to place orders, manage bills and handle complimentary items for dissatisfied customers.
- Upsell high-profit items such as appetizers and mixed drinks to enhance sales numbers.
- Greet and maintain relationships with regular customers.

EDUCATION

Computer Engineering Bootcamp Certificate: University of Arizona, Gilbert, AZ

- A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node.js, MySQL, MongoDB, Express, Handelbars.js & React.js.
